Problem: Fresh food insecurity from 6pm - 7am

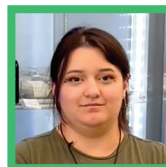

Solution: In August 2022, Aramark opened 3 FoodSpot microstores to introduce secure, cashierless fresh food accessibility inside student housing at Cal State Bakersfield.

"For us in Campus Housing, this is a prime location. We love having these FoodSpot micro markets here. Our students get a variety of fresh food every day."

EJ Callahan
VP of Student Affairs

"I take a night course and it's really hard to find food after the cafeteria closes. With these smart fridges, it's so handy. I come down at 11 o'clock at night, and walk back up to my dorm room safely."
